

Measure Internet Censorship

What is OONI Probe?

OOONI Probe is a free software app that **measures Internet censorship**, such as the blocking of websites and instant messaging apps (e.g., WhatsApp).

Run OONI Probe to **collect evidence and contribute to the world's largest open dataset** on Internet censorship.

Heads-up!

Please **turn your VPN off** when running OONI Probe to help ensure more accurate test results.

Running OONI Probe **can potentially be risky** in certain countries.
